SUMMARY

Senior Mobile Developer with 3+ years shipping Flutter apps for HR, lending, e-commerce, ISP and streaming. Leads a four-person mobile team at UMG Group across Flutter and native Android (Kotlin). Six production apps on Google Play and the App Store, including ShweStream (50,000+ downloads). Strong in Clean Architecture with BLoC, payment integration (10 gateways) and mentoring. Also built a full-stack survey platform: a Go REST API with native Android (Jetpack Compose) and iOS (SwiftUI) apps.

SKILLS

Mobile	Flutter, Dart · Android: Kotlin, Jetpack Compose, XML (MVVM) · iOS: Swift, SwiftUI (project work)
Architecture	Clean Architecture, BLoC / Cubit, Provider, MVVM, Hilt, get_it + Injectable, GoRouter, Freezed
Backend	Go, Gin, GORM, MySQL / TiDB, JWT authentication, Docker, Render
Payment Gateways	2C2P, Coda, KBZPay, WavePay, CB Pay, MPT, Ooredoo, ATOM, Google Pay, Apple Pay
Leadership	Leading a four-person team, mentoring, code reviews, technical training, project coordination
Tools	Git, Android Studio, Xcode

EXPERIENCE

Senior Mobile Developer · UMG Group of Companies Limited

Apr 2025 – Present

- Lead a four-person mobile team building and maintaining UMG's apps across Flutter and native Android (Kotlin), from legacy HR and engineering tools to customer-facing business apps.
- Hi5** — the group's core HR platform: a multi-module app on an Odoo backend that unifies meetings (EMS), training (TIS), library and asset management (AMS). [Google Play](#) · [App Store](#)
- Win Finance** — loan-management app automating borrower management, loan approval, disbursement and instalment tracking, with real-time reporting and secure authentication. [Google Play](#)
- BeTheFirst Internet** — ISP self-service app for managing subscriptions, changing plans, browsing promotions, paying through integrated gateways and raising support tickets. [Google Play](#) · [App Store](#)
- Mentor the team through technical guidance, code reviews and training sessions.

Freelance Mobile Developer

2026 – Present

- Built a Flutter e-commerce app for client **Soon Loon Global**, a heavy-machinery spare-parts supplier, now live on Google Play and the App Store. [Google Play](#) · [App Store](#)
- Shoppers search parts by category, brand and machine type, compare detailed specifications, then order through a cart with order history.

Mobile Developer · E-trade Myanmar Co., Ltd.

Jun 2024 – Mar 2025

- ShweStream** — movie-streaming app with 50,000+ downloads, built on BLoC and Clean Architecture. [Google Play](#) · [App Store](#)
- Byoh Lifestyle** — lifestyle app for young adults publishing daily videos, articles and programmes, on the same architecture. [Google Play](#) · [App Store](#)
- Integrated 10 payment channels for subscriptions and in-app purchases: telco (MPT, Ooredoo, ATOM), mobile wallets (KBZPay, WavePay, CB Pay), 2C2P, Coda, Google Pay and Apple Pay.
- Led the Flutter team building an internal fuel-usage reporting app for telecom site operations.

Mobile Application Developer · K-Win Technologies Co., Ltd.

Jun 2023 – May 2024

- Developed a POS app for Yankin Bubble Tea, plus HRM and e-commerce apps for Medical World Company, using Provider for state management and Retrofit for REST APIs.
- Built an offline-first shopping cart backed by Hive local storage.
- Collaborated on the Arfi Lifestyle e-commerce app, integrating the 2C2P payment gateway.

- Monitored day-to-day project and operations activities in support of the project and operations managers.
- Gathered data from the operations team and reported progress and issues clearly to clients.

PROJECTS

SurveyNext · Full-stack survey platform

Go · Kotlin · SwiftUI

Survey platform with interviewer (survey builder, drafts, publishing, analytics), respondent (discover, answer, history, points) and admin roles.

- **Go backend** — REST API on Gin and GORM with TiDB Cloud (MySQL): JWT auth, role-based routes, pagination, unit and route tests; deployed as a distroless Docker image on Render. [GitHub](#)
- **Android app** — Kotlin and Jetpack Compose (Material 3), MVVM with Hilt, StateFlow and coroutines, Retrofit with an auth interceptor. [GitHub](#)
- **iOS app** — migrated from the Android app to native SwiftUI: @Observable MVVM, async/await, Keychain sessions, no third-party dependencies. [GitHub](#)

Survey Spark · Survey and rewards app

Flutter · Firebase

Two-sided app where interviewers create, publish and analyse surveys and respondents answer them to earn points, with real-time Firestore sync and chart-based analytics. [GitHub](#)

Stack: Flutter, Clean Architecture, BLoC (Cubit), Firebase (Firestore, Auth, Cloud Messaging), Google Sign-In, GoRouter, get_it + Injectable, Freezed, fl_chart

LedgerL · Digital wallet

Flutter · Firebase

Peer-to-peer wallet with Google Sign-In, balance transfers guarded by Firestore's atomic runTransaction, transaction history, offline viewing and a centralised responsive design system. [GitHub](#)

Stack: Flutter, Clean Architecture, BLoC, Firebase (Firestore, Auth), GoRouter, get_it + Injectable, connectivity_plus

EDUCATION & CERTIFICATIONS

Bachelor of Engineering (B.E.), Electronic Engineering

Final year

Mandalay Technological University (Centre of Excellence)

ICM Single Subject Diploma in Project Management

2022 – 2023

Strategy First University

Certificate in Programmable Logic Controllers (PLC)
